

Environmental Protection Agency

§ 152.175

adverse effects of a delayed or indirect nature through bioaccumulation, persistence, or pesticide movement from the original application site.

(v) Widespread and commonly recognized practices of use would not nullify or detract from label directions such that unreasonable adverse effects on the environment might occur.

§ 152.171 Restrictions other than those relating to use by certified applicators.

The Agency may by regulation impose restrictions on a product or class of products if it determines that:

(a) Without such restrictions, the product when used in accordance with warnings, cautions and directions for use or in accordance with widespread and commonly recognized practices of use may cause unreasonable adverse effects on the environment; and

(b) The decrease in risks as a result of restricted use would exceed the decrease in benefits as a result of restricted use.

§ 152.175 Pesticides classified for restricted use.

The following uses of pesticide products containing the active ingredients specified below have been classified for restricted use and are limited to use by or under the direct supervision of a certified applicator.

Active ingredient	Formulation	Use pattern	Classification ¹	Criteria influencing restriction
Acrolein	As sole active ingredient. No mixtures registered.	All uses	Restricted	Inhalation hazard to humans. Residue effects on avian species and aquatic organisms.
Aldicarb	As sole active ingredient	Ornamental uses (indoor and outdoor).do	Other hazards—accident history.
	No mixtures registered	Agricultural crop uses.	Under further evaluation.	
Aluminum phosphide. Azinphos methyl	As sole active ingredient. No mixtures registered.dodo	Inhalation hazard to humans. Do.
	All liquids with a concentration greater than 13.5 pct.dodo	
	All other formulationsdo	Under further evaluation..	
Carbofuran	All concentrate suspensions and wettable powders 40% and greater.dodo	Acute inhalation toxicity.
	All granular formulations	Rice	Under evaluation.	
	All granular and fertilizer formulations.	All uses except ricedo.	
Chloropicrin	All formulations greater than 2%	All usesdo	Acute inhalation toxicity. Hazard to non-target organisms.
	All formulations	Rodent controldo	
	All formulations 2% and less	Outdoor uses (other than rodent control).	Unclassified.	
Clonitralid	All wettable powders 70% and greater.	All uses	Restricted	Acute inhalation toxicity.
	All granulars and wettable powders	Molluscide uses	Restricted	
Dicrotophos	Pressurized sprays 0.55% and less	Hospital antiseptics	Unclassified.	Acute dermal toxicity; residue effects on avian species (except for tree injections).
	All liquid formulations 8% and greater.	All uses	Restricted
